

SOUTH COAST MARICULTURE

SOUTH COAST MARICULTURE TOUR

When: 10 – 12 noon

Where: Unit 5/6 Bolton Rd, Huskisson NSW 2540 (see map below)

Note: You will have to make your own way to Huskisson. Please arrive 10 minutes before for a start at 10am. A small group of 10 people per tour ensures enough space on the boat and in the shed for a more intimate experience.

In this field trip you will be able to visit South Coast Mariculture offshore leases as well as the processing facility and learn all about offshore blue mussel farming. The farm visit will consist of a short 15-220min steam to the leases across Jervis Bay to Callala Beach where there is a 20 ha lease ~ 4 nm offshore. You will get to hear about seeding and harvesting procedures, farm work and day to day operations. You will get the chance to ask plenty of questions before heading back to the processing sheds where groups will be swapped over.

Find out more about [South Coast Mariculture](#) and [Jervis Bay Mussels](#).
