Spat available	We have completed our first run of the season which is now all sold out. Starting our next run soon of the QxR family lines. Will also do another run of our SCS line in late January	Hatchery run currently progressing well which means I will have more 4mm spat of the latest selected line families available early next year. Please place your orders as early as possible, especially for larger sizes, so I can have stock available when you want it.	We have had 2 excellent early spring hatchery runs and all spat sold and a lot already out in tumblers growing. Some spat have already grown out to 21mm in 38 days. We will be doing 2 more hatchery runs starting mid January.	No update received	No update received	No update received	No update received

Disclaimer: To order spat, please contact the hatcheries and nurseries above. Spat availability can change quickly and unexpectedly. Whilst considerable effort has been made to provide accurate information, by the time of publishing, the situation may have changed. Biosecurity protocols pertinent to interstate movement of spat are in place.
