

**PFG GROUP**

## **CREATORS OF DURABLE PRODUCTS FOR HARSH ENVIRONMENTS**

At PFG we offer a complete range of products and services for both marine-based and land-based aquaculture, across fin-fish, shellfish and high value species. We also provide consultancy and advisory services to investors, governments and other agencies regarding design, manufacture, and due diligence of aquaculture projects.

## **OUR AQUACULTURE PRODUCTS INCLUDE**

### **WORKBOATS**

Our Aquatruck range offers zero corrosion, resists fouling, is easily maintained and has a 50 year UV protection. It will last 4 times longer than its alloy competitors by its robust, durable HDPE construction, good design and structural integrity.

### **FLOATS, BOUYS & MARKERS**

We have a huge range of Australian made marine products roto moulded with a 6mm tough and durable polypropelene skin. We can support these products with chain and mooring systems to cover most applications.

### **BINS & HOPPERS**

Our bins are made from food grade polyethylene which is tough, non-absorbent and easily washed and disinfected. Our range includes products that are nestable, that can be lidded, that can include insulation, and that can be stacked.

### **OYSTER WEAR**

Our range includes the full contingent of wet weather gear including Kaiwaka PVC and fleece lined Jackets, Dunlop boots, Ansell Gladiator Gloves and Ninja Gloves to name a few. Our complete range can be found at [www.seamaster.net.au](http://www.seamaster.net.au)

### **SHELLFISH FARM SUPPLIES**

Our specific Oyster farming range includes Oyster mesh from 2mm (spat) to 18mm, bulk cable ties, polypropelene rope, soft mesh Oyster Bags and single seed branch hangers. The entire range can be found at [www.seamaster.net.au](http://www.seamaster.net.au)

### **CUSTOM FABRICATION**

Many requirements are unique to the site and an off the shelf solution is rarely available. Our work includes custom design, fabrication, manufacture and installation of equipment and systems for a wide range of applications.
